THE New York World again most earnestly cautions the Southern people against sending to Congress any persons under disabilities, or who are unable to take what is called the "iron-clad oath," or that passed by the Congress in July, 1862. The general rule is that all members of Congress must take that outh. And it would, therefore, be unsafe to elect any not able to take it, and would result in their rejection beyond all doubt. As touching those under disabilities, and not able to take such an oath, the counsel of the World is time-

But the World itself admits, and it is too plain a matter for doubt, that there are some exceptional cases, and Senators Pool, of North Carolina, Johnson, of Virginia, and Lewis, of Kentucky, with Butler, of Tennessee, and others, have already been admitted without taking the "ironclad." The act of December 14, 1869,

is as follows: Sec. 2. And be it further enseted, That ns from whom the disabilities imposed by the Fourteenth Amendment of fact. This operates a repeal of the general law as to them. It would be absurd have given aid and comfort to the Confederacy, and whose disabilities tricks to win votes, but will hardly therefore Congress has actually removed, an oath that they had given no aid and comfort; and therefore this provision was made for their cases as exceptional. They have only to swear to support the Constitution, bear true allegiance to the Government and demean themselves faithfully as members of the two houses. If, for instance, of the candidates for this district Lacey, or Latham, or Vanghn, or Chattanooga to Meridian and New Shelton should be elected, the one Orleans, through the iron and coal elect would be required to take the iron-clad; while if Archibald Wright, grants \$6,800,000; the Memphis and or Wm.
